## CAPTURE OF BRUSSELS IS REPORTED

### EXPIRING PONTIFF MOURNS WOES OF BATTLING NATIONS

**R**OME, Aug. 20.—"Together in one, all things in Christ." These words which Pope Pius X adopted as his motto in an encyclical issued on August 10, 1902, six days after he had been elevated to the pontificate, were on his lips as he entered the Valley of Death.

The end, which came at 1:20 o'clock this morning, was peaceful. A few moments before he had been roused from a state of semi-consciousness and he attempted to bestow a blessing on those gathered in the chamber, but his strength failed him. After a pause he murmured the scriptural text and did not speak again.

The death of the Pontiff in the eightieth year of his life and the twelfth year of his pontificate, while long expected, because of ailments incident to advanced age, nevertheless came as a shock even to those near him.

For several days he had been suffering from gouty catarrh, but on Tuesday his physicians asserted that the trouble was of no great importance and yesterday morning reassuring reports concerning that patient were current.

The change came suddenly during the forenoon yesterday and early in the day those in attendance realized that death was imminent. Similar attacks had been resisted with the aid of the Pope's will-power, but depression over the clash of arms in Europe militated against another recovery.

#### THE FINAL SCENE.

At 10 o'clock last night the Pontiff was in a semi-conscious state greatly distressed him. He could not move in bed without assistance, and the struggle he made to breathe was painful to witness. As the supreme moment approached the coughing ceased and the restlessness which the doctors had been unable to relieve disappeared. The features of the patient, which had given evidence of his pain, assumed a normal expression, except for the pallor, which increased.

The Papal Secretary of State, Mgr. M. Valti, Cardinal Ferraris, Cagiano and Biscetti, the Pope's two sisters and physicians who were at the bedside recognized the calm preceding death.

Dr. Marchisafra, his hand on the Pontiff's pulse, turned toward the Papal Secretary who was kneeling and shook his head.

Cardinal Merry Del Val understood and covered his face with his hands. Meanwhile Cardinal Vanutelli, his Pope's niece, Gilda Parelli, his son, Monsignor Banchieri, Monsignor Minciotti, and his secretary, Monsignor Ursenbach and Pesci, had joined the group in the chamber.

The two sisters and the Pope's secretary could not restrain their sobs and their voices seemed to bring back the Pontiff from the state of coma into which he had lapsed. His eyes opened and his lips moved, and it was plain that he was making an effort to impart a final blessing.

#### THE NAME OF CHRIST.

For a moment it seemed that dissolution had taken place and then the lips moved again.

Dr. Marchisafra released the wrist, which dropped pulseless on the Pontiff's breast. The physician bent over the dead, listening for a heart that was still, and succeeded in finding and stopping 400 of them. The Austrian casualties are given as 140.

#### Seventeen Dead in Fight With Thieves

Immediately afterwards small lights flickered in all the windows of the building, and all the whole personnel of the Apostolic palace, with permission of the secretary, passed the body, kissing the hand of the Pontiff as they passed.

Throughout the night messages had been received from the heads of many Mexican states inquiring the condition of His Holiness.

Italian Premier, Signor Salanitano, at once ordered that the necessary measures be taken to guard the assault an empty house in the canyon liberty of the provisional government where the cornered bandits had taken refuge.

The American dead are Deputy Sheriff John Brown, Fred Smith, Earl others, Indian of the supreme power of the church during the interregnum pending timekeeper for the Ray Consolidated Mining Co., Frank Miller, his brother, and a youth whose name has not yet been ascertained. The youth was killed in the fighting today. The other Americans were in Rome, as is usual, and further stain yesterday.

After the first brush between the horse thieves, Ray citizens drove all Mexicans out of town.

#### Fear Dr. Hegemann Fell Before Liege

That Dr. Werner Hegemann, the noted city-planning expert who recently was in Oakland to measure the city-planning report now in the hands of the City Council, may have been shot in the fighting before Liege is feared by local friends of the famed expert, who have not heard of him since he rejoined his troop of German infantry in preparation for the European war. Dr. Hegemann holds a commission as captain of the German army and was one of the first of the officers sent with troops to Brussels at the beginning of the war. He cables several Oakland friends before starting, but since the opening of hostilities no word has been received.

Dr. Hegemann spent some time in Oakland and Berkeley, planning reports for both cities. He was a member of the Oakland Commercial Club and took a prominent part in the recent city-planning exhibition held in the city hall. He left Oakland for Yokohama, Japan, and returned to Germany only a few days before the war broke out.

#### France Faces Great Economical Problems

PARIS, Aug. 20.—A warning issued by the French government today says that while one great struggle is in progress on the frontiers, another fight must be fought in the interior of the country against the misery which follows the disorder in its economical life.

The prefecture of police in Paris estimates that there are 600,000 out of work in the French capital and its suburbs, or nearly one-sixth of the total population of the department of the Seine.

#### Wilson Plans Week End Cruise on Ocean

WASHINGTON, Aug. 20.—President Wilson is planning a week end cruise along the Atlantic coast on the Mayflower beginning probably Saturday.

### TROOPS OF THE EMPEROR POUR ACROSS MEUSE

By Associated Press.

LONDON, Aug. 20, 6:45 p. m.—A dispatch to the Star from Brussels says the German occupation of Brussels is imminent. The burgomaster of the Belgian capital has ordered the civic guard to disarm.

The following information was given out by the official bureau this afternoon:

"The Belgian field army, confronted by superior numbers, has fallen back.

"The Belgian troops have admirably performed their duty in delaying the hostile advance and enabling their allies to complete their concentration."

The almost complete absence of news from the theater of war today is the best evidence that big events are in progress which will test the real calibre of the battalions today engaged in "the Waterloo" or the "new Sedan."

#### PUSH GERMAN ADVANCE.

That the great German advance is being pushed with vigor and determination can be safely asserted, judging from the intelligence permitted to the outside world. On both banks of the Meuse the Germans are crowding southward toward the entrenched French army waiting to stem their progress toward Sedan and Paris.

The invaders already have reached a line between Dinant and Neufchateau, the latter point being less than twenty-five miles from Sedan as the crow flies. To the northward their advance troops have reached the river Dyle, near Malines, almost midway between Brussels and Antwerp.

#### GERMANS GAIN GROUND.

Before this northward rush the Belgian forces are retiring on Antwerp. In Brussels they call this a strategic retreat.

Whether the movement is strategic or forced, the Germans have gained much ground in the direction of Brussels. Should they, however, take advantage of this tempting opening for a raid on the Belgian capital, they may find the now retreating Belgian army swooping down upon them from behind.

"All is going well for our arms" continues to be the tenor of all French dispatches concerning the situation in Alsace-Lorraine.

The official information bureau announced that communication with Brussels since early this morning has been disrupted.

The correspondent at Ghent of the Exchange Telegraph Company has sent in a dispatch saying that troops of the allies have inflicted a defeat on the Germans, who retired last night from Tirlemont with heavy losses.

#### GAIN FOOTHOLD ON MEUSE.

PARIS, Aug. 20, 11:10 a. m.—An official communication received here from Brussels says: "The Germans have gained ground on both banks of the river Meuse and are in contact with the armies of the allies. The enemy, finding the routes to the southward strongly held by French and Belgians, discovered an opening to the north. This may entirely change the strategy on both sides."

"The Belgians having held the invaders in check for fifteen days, have done all that could be expected. Belgian strategy will now be merged into the general plan of the allied armies. The retrograde movement does not mean defeat."

A portion of the Belgian army has begun to retire in the direction of Antwerp, according to an official announcement this morning concerning the situation in Belgium.

East of Namur the Germans have attained the line between Dinant and Neufchateau.

Large German forces continue to cross the river Meuse between Liege and Namur.

German outposts have occupied Dyle.

The retirement of the Belgians toward Antwerp was a result of the German movement.

There is a persistent rumor here that the Germans have occupied Brussels, but it cannot be confirmed.

#### RENEW DIEST ATTACK.

BRUSSELS, Aug. 20, via Paris.—The Germans made a new attack on Diest in the afternoon (date not given), according to press dispatches. After pillaging the railway depot they bombarded the town from which all the inhabitants had fled. Their artillery appears to be bombarding Tirlemont.

#### FRANCE RECOGNIZED WITHIN BOUNDARIES

PARIS, Aug. 20, 3 p. m.—The reoccupation of Muelhausen, Alsace, by French troops is announced officially here today.

The recapture of Muelhausen was preceded by a very severe battle during which the French troops took one of the suburbs at

the point of the bayonet. They also took as the result of their victory six German cannon and six ammunition wagons.

The official note says the situation in the Vosges mountains is unchanged.

In Upper Alsace the French have occupied Guebwiller, fourteen miles southwest of Colmar.

In Lorraine, it is stated, the French lines extend from the north of Sarburg, passing by Morhange to Delmo.

The situation in the Duchy of Luxembourg and in Belgium is unchanged.

## DRAWING NEAR BRUSSELS.

BRUSSELS, Aug. 20.—The war evidently is rapidly drawing nearer this city. Already four hospitals are filled with wounded soldiers. German aeroplanes have been seen scouting above the city after sundown.

German cavalry is reported in the region on the other side of the forest of Soignes, which flanks the city. This forest is the point from which the attack is most likely to come in the opinion of many here and a network of trenches has been thrown up among the woods. The French are occupied by burghers and a few civil guards.

The forest of Soignes, which is to the southeast of Brussels, extends in the direction of Wavre, where severe fighting has been reported.

Two-way reports have just been received of an engagement near Charleroi. It is claimed by the Belgians that 600 Germans were killed in this battle.

The censorship here is now so strict that no news of the war is going out of the city except by courier.

## INTO CAPITAL'S SUBURBS.

The advance of German troops around and above Brussels and even into what are practically the suburbs of Antwerp is indicated in Reuter dispatches from Antwerp, which report that German cavalry has been encountered near Herenthals, 15 miles east of Antwerp, and also near Turnhout, which is 24 miles northeast of Antwerp and close to the Dutch frontier.

A dispatch to the Times from Brussels says:

"The Germans are in strong force, mostly cavalry and artillery, entered Turnhout early Tuesday afternoon.

"The big guns shelled the place, while the cavalry played a war by attacking the flying panic-stricken populace, shooting and sucking them at random.

## REFUGEES GET AWAY.

"About five miles from the town two trains made for fully 1000 refugees got away. So swift an orbited had been the onslaught of the Germans that in flight for their lives men, women and children left every-

thing behind. Never have I seen such a picture of woe as that presented by a group composed of a peasant woman and five children, standing bewildered in the square, crying as though their hearts would break. The woman said:

"They shot my husband before my eyes and trampled two of my children to death."

The last glimpse that the refugees had of Tirlemont showed smoke and flame in different quarters of the town."

## FIGHT BITTERLY AT DIEST.

LONDON, Aug. 20.—A despatch to the Daily Express from The Hague says:

"A bulletin posted here states that the Germans and Belgians are fighting bitterly at Diest and Aerschot on their way to Antwerp. This news is causing the greatest uneasiness here. For the first time in the present crisis the Dutch realize the terrible peril which the Germans have brought to their very doors, for Germany's advance on Brussels can have no other object than an attack on Antwerp."

The Brussels correspondent of the Exchange Telegraph company says:

"Competent military circles here believe that the march on Brussels was resorted to only as a sequel to the complete failure of the German plan of sudden attack on France. Had Liege not resisted, Germany might have remained faithful to her original plan."

"But Liege held up the whole German army for ten days during which the Belgian government poured ammunition and men into Namur, thus preparing for a much longer defense than was the case for Liege. Should the German armies be held up at Namur, there is little doubt but they will, the keenest disappointment will be felt in Germany. A Belgian diplomat told us today:

"They will never get Namur. Liege was child's play."

## FEAR ATTACK ON ANTWERP.

"The Dutch are anxious about the attack on Antwerp because it would threaten the Scheldt river which is partly a Dutch waterway.

"Queen Wilhelmina had interviews with her ministers today and in-

PRESIDENT POINCAIRE OF FRANCE, INSPECTING MEN FROM SOME OF THE REPUBLIC'S FIGHTING SHIPS.

spected the Hague barracks. Her consort, Prince Henry, who before their five defeat on the enemy and drove them back across the frontier east of Louvain.

The correspondent says that the laconic reports of the French ministry give little idea of the despatches from Brussels to the London papers announce that the handful of villages scattered along the French border.

Point after point was taken and retaken by one side or the other. VILLAGERS DESCRIBE BATTLE.

"It is becoming practically impossible to get news away from Brussels fighting at the village of Badonvillier as the censor forbids any information concerning the movements of the troops being published. However, it is certain that a tremendous battle force and was prepared for defense.

"The village was occupied by a battalion of chasseurs as a covering force at the end of the day have reached the hamlet of Villers. It was a terrible sight.

"Women fell on their knees and prayed, while children cried piteously.

"The chasseurs retired defending the chasseurs to evacuate it. The Brussels correspondent of the

Brussels despatch to the Havas Agency says that according to The People, the Germans again attacked Diest Wednesday afternoon. They

appeared to have come back in force and bombarded the town whose inhabitants fled in terror. The German artillery also is reported to have

bombarded Tirlemont.

Another Havas despatch from Brussels sent in very vague form, leads to the belief that the Germans made a surprise advance close to the Belgian positions defending Brussels.

"They encamped for the night, but a Belgian aviator discovered their position and revealed its headquarters in time. Cavalry was hurried forward and after some marching and countermarching the Germans retired.

Belgians EVACUATE CITY.

Regarding the situation at Louvain, the Brussels correspondent of the Central News says:

"When the Germans brought their heavy artillery into play in front of Louvain, the Belgian troops decided to evacuate the place in order to save the beautiful and historic city from destruction. Therefore they took up strong positions on the road to Brussels."

"The German losses around Louvain were terrible. The Germans still persist in advancing in close formation, and will probably go into battle again to-morrow, though Captain Moriyama said

that his plans were subject to orders and might be changed at any moment. The cruiser has been on duty for many months in Mexican waters, as his name and number bottom is four.

"Technically, Japan is at peace with all the world. Captain Moriyama again called attention to this fact. "We are at sea. Her movements don't concern us. Whom should we fight? We have no enemies."

## MUST DISCHARGE LEIPZIG'S COAL

## Vessel Forbidden to Leave Port

SAN FRANCISCO, Aug. 20.—The tramp steamer Mazathan, which at one time and another has down the Mexican and German flags, was forbidden to leave port today until she shall have discharged 500 tons of coal, laden in sacks, which it is alleged was intended to be transferred at sea to the German cruiser Leipzig.

The Mazathan is owned by Frederick Jepsen & Co., German shipping agents of this city. She was ostensibly to clear for Mexican ports of the west coast, which is her regular run.

Suspicion was directed to the vessel last night when it became known that she had coal on board. Collector David Rothschild then told John Rothschild

wholesale dealers in supplies, and Rothschild admitted that the coal on board the Mazathan had been ordered by him from the Western Fuel Company on August 11 for delivery on board the Leipzig, as soon as he had to look for his money, he said to Simon Rehman, who styles himself a special agent of the German consulate. This is the active German Consul, Baron Von Schack, who Rothschild's share in the transaction was that of a commission merchant.

"Perhaps this morning, or at most tomorrow," continued the captain, who speaks excellent English, although his ear seemed a little slow to catch the fact that the Toyo Kisen, Kalska's steamer Shinyo Maru was occupying the Hunter's point dock.

"How can we fight? We have no

more exciting events than going into dry dock might be ahead.

The Idzumo, which mounts a formidable battery of four 8-inch guns in the turrets and fourteen 6-inch broadsides, looked clean and fit. She was fully loaded and provisioned for a long cruise while in San Diego.

HOLDS LONG CONFERENCES.

Captain Moriyama held several long conferences with Consul-General Numano, who is in charge of the Japanese naval and military officers, and after even the newspaper men had left the Consul-General's office to acquire Moriyama with his advices.

The Japanese cruiser carries a complement of thirty-three officers, sixteen warrant officers and 647 men. Captain Moriyama, aboard the Idzumo as Admiral Kamimura's personal aid, saw service on the flagship during many engagements of the Russo-Japanese war, including the battle of Tsushima, Korea, August 14, 1905, which destroyed the Russian Asiatic fleet.

The vessel was here as Japan's representative at the first Portola festival in 1905.

## GIVES STORY OF CAPTURE OF FLAG

## French Officer Describes Engagement With 99th Brigade of Germans.

By Associated Press.

PARIS, Aug. 20.—An officer of a French rifle regiment gives to the Petit Troyen the following account of the capture of the first flag:

"The engagement of the French troops with the 99th Battalion, 1st Brigade, command lasted from 8:30 a. m. to 2 p. m.

"The artillery combat was terrible. The French 75-millimeter guns made hay out of the German horses and then reduced the German forces to a skeleton.

"The summer was dedicated to the French fire and they abandoned their rifles, which fell into French hands.

"The German machine guns from a church steeple continued to fire. The French, but the church was finally demolished.

"At nightfall the French charged the enemy's defense works with irresistible energy and took them at the point of the bayonet.

"They established themselves there for the night.

"In this action the Fifth company of the First Battalion captured a German flag with eight guns, ninety horses and 337 prisoners, including ten officers."

## Discuss Work for France's Unemployed

PARIS, Aug. 20.—The problem of providing work for the large number of unemployed in France today occupied the cabinet council presided over by President Poincaré, of the Palace of the Elysée. Louis Malvy, minister of the interior, reported that steps had been taken in collaboration with the local authorities and large employers to start work shops and labor yards.

All the old men and youths in the building trades are to be put to work finishing buildings under construction. Factories will be re-opened and will employ limited forces. For-reaching charitable work supported by the government is being ordered.

There has been almost complete cessation of orders in the dressmaking, millinery, artificial flowers, lace and embroidery and related industries which under ordinary circumstances employ over 1,000,000 of the laborers of France.

It is hoped that American orders will continue. Many of the large dressmaking establishments are giving work to their staffs. In the making of plain hospital garments for the wounded. This is done at their own expense.

The labor unions in the Department of the Seine and elsewhere in France have opened vast soup kitchens where those who can pay may have a meal for four cents. Those who cannot pay are fed for nothing.

## Emperor's Son Now Quartered in Liege

LONDON, Aug. 20.—The Rotterdam correspondent of the Times, reports that a telegram from Maastricht says that Prince Eitel Friedrich, the second son of Emperor William, is quartered in the Provincial Palace at Liege on the frontier of the commandant of the First Guards Regiment.

Prince August William, the fourth son of the Emperor, who stopped last night at the Grand Hotel in Liege, also arrived at the Provincial Palace and left by motor for the front.

General Von Kotow has been appointed the new governor of Liege.

## WAK CAUSES INCREASE IN PRICE OF METALS

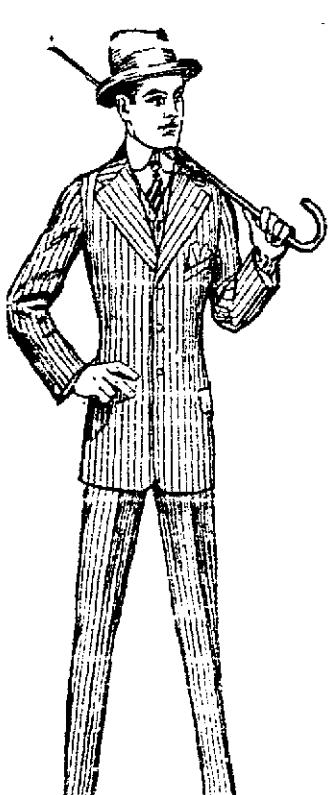

WASHINGTON, Aug. 20.—The European war is causing an increase in the prices of certain metals and affecting the products of others. The geographical survey today.

The war raised the New York price of tin to 60 cents a pound. In July tin sold as low as 20 cents a pound. The rise in price is attributed to insecurity of ocean freight which are carried largely.

Antimony, ordinarily one of the cheaper metals, has reached more than 20 cents a pound, a price higher than that of aluminum.

This is due to the fact that practically all of the metal used in the United States is imported from European smelters.

# RUSSIANS TAKE CITY

## TROOPS OF CZAR SEIZE PRISONERS AND 12 CANNON

By Associated Press.

ST. PETERSBURG, via London, Aug. 20.—A body of Russian troops, according to an official communication given out today, has occupied Gumbinen, twenty miles from the Russian frontier of East Prussia, capturing at the same time twelve German guns and a large number of prisoners.

## AUSTRIANS BEATEN BACK.

LONDON, Aug. 20.—Telegraphing from St. Petersburg, the correspondent of the Daily Telegraph sends a communication issued by the Russian general staff reporting a prolonged engagement about thirty miles northwest of Kamenz, the capital of Capella. It declares the Austrians were beaten back with heavy

## MUTINEERS SHOOT OFFICERS.

LONDON, Aug. 20.—The Daily St. Petersburg correspondent says that a despatch received in St. Petersburg by the Novos Vranya from Kiev says the Czech residents of that city have received letters from relatives in Bohemia alleging that the Czech and Polish troops shot down their officers, shouting:

"Down with Emperor William!"

Pragus, the letters said, for a whole day was in the hands of the mutineers. The next day, however, the Austrians, having been reinforced, re-entered the city and indulged in reprisals.

"Women and children," the despatch continued, "were shot down and every Czech caught in the street was killed. The finest monuments in the city were destroyed and the Austrians installed their shops. These cruelties called forth a new uprising two days later, which was followed by fresh reprisals. It is reported that the Russian consul was executed."

## GRAND DUKE GOES TO RUSSIA.

STOCKHOLM, Aug. 20.—The Grand Duke Michael Alexandrovitch, brother of the emperor of Russia, with his suite of seventeen persons, arrived at Christiansburg yesterday from England on his way to Russia.

CASUS BELLI IN

"Don't talk war!"

This is the rule of an Oakland factory, and there's reason for it. The employees of a factory talked war. Here's the loss:

One Bulgarian, expert rubber worker—30 days in city prison.

One German—At least 5 days in hospital.

Two Frenchmen—Fined.

One Australian—Fined.

Belgians—Resigned, rather than work with German foreman.

Varney K. Sturges, automobile tire expert, who recently left that held up \$1,000,000 in five years in Oakland, says his profits go to the dues of war until he made the rule. Since then he has had peace. A general committee has been formed to demand that all 50 organizations of associated workers have since been working and not fighting.

There was a general strike the second day after the war was declared, and emerged from a conflict of its own starting in which he was a victor. He had peace, though, even if he had to fight for it.

He's his man.

Remember, people of other nations are as sensitive as you are.

Remember, they can hit as hard.

Remember, fighting doesn't buy your countries anything.

Remember, any man who brings up war in this factory gets fired.

PITTSBURGH STEEL CO.  
DEFERS USUAL DIVIDEND.

PITTSBURGH, Aug. 20.—Directors of the Pittsburgh Steel Company today decided to defer the declaration of the dividend on preferred stock usually payable September 1, as the company announced it wishes to conserve its cash resources and protect its credits. Although the directors announced the dividend has been more than earned, the uncertain condition growing out of the European war was reported to have factored into the action.

MILITARY EXPERT  
REVIEWS SITUATION

## American Describes Conditions in Brussels; Citizens Agitated Over Rumors.

By Associated Press.

LONDON, Aug. 20.—An American military expert, reviewing the situation in Belgium, said last night:

"I left Brussels today. There was a great deal of excitement there, as the people thought the Germans very near and there had been fighting at Turenne. Some 5000 persons are coming from Turenne and Louvain."

The people kept very quiet, though they were filled with suspense owing to the numerous rumors. The impression was that the Germans, after making reconnaissances in force, were about to advance on Brussels. The Germans with cavalry were about to advance in force on Brussels. The population had been told by the burgomaster that if the Germans came, they should remain indoors and so far as possible with their usual vocations.

Brussels is an undefended city, but within the last three or four days every important street leading out of the town has been barricaded. Trenches have been dug in the outskirts and barbed wire entanglements have been placed in front of them. These defenses, however, are intended only for protection against a cavalry raid. They would be futile against any attack in force.

Antwerp apparently is the temporary goal of the German troops in Belgium. They are reported moving slowly but steadily in the direction of the great port on the river Scheldt. The German soldiers have occupied the town of Turenne and their masses pushing in from the frontier are believed to have come into contact with the allies' front.

## NO MILITARY SETBACK.

A battle for the actual possession of Brussels will be fought outside in the direction of Wavre and Louvain. If the Germans take Brussels, it does not mean in any sense a military setback for the allies beyond its sentimental effect and the opinion in Brussels was that owing to French successes in Alsace and the check the German right wing has suffered in Belgium, something must be done which would have at least the form of success.

Brussels apparently is not unduly worried. The shops are open; the street cars and taxicabs are running and the newspapers are appearing regularly.

There is no sign of alarm, and the staff states that the situation is excellent. As a matter of fact, the general public has not yet heard the news which was rapidly spreading early this morning in official quarters.

The people will submit to the Germans without any demonstrations, bearing of the practical good sense of the Belgians, which teaches them that resistance after their army is driven back is fruitless, and because of their supreme confidence that the British and French will eventually drive the Germans out of Belgium.

## WARNED AGAINST REPRISALS.

The Belgian officials are warning the people not to attempt reprisals because that would bring reprisals on them. You can hear any kind of rumor in Brussels, and if the Germans are determined to attack in force Brussels will be taken, unless the allies decide to resist for the sake of the moving crops is so pressing that the extraordinary step was determined upon.

## MAY BE RETAINED.

The Germans have been using their cavalry with great audacity and sometimes with more audacity than skill. They have sent their cavalry as scouts in all directions, and some reported battles have been no more than reconnaissances, in force, in which the Germans used both cavalry and infantry and some guns, with either one of two purposes. They were either aiming to cover their flank by these continuous threats or else were ascertaining the Belgian dispositions with a view to an attack in force.

The honors are with the Belgians in these combats. Their bicycle corps, pedaling rapidly on the fine roads, have responded instantly to the alarms. The country is wholly unsuited to reconnaissances, as it is cut with hedges and sunken roads. There is rarely a field of 10 acres which would permit of a charge.

OLD MEN AND BOYS  
NOW GUARD BERLIN.

LONDON, Aug. 20.—The Times correspondent at Rotterdam telegraphs a statement which he says was made to him by a party of Chinese medical men, who have arrived in Rotterdam from Berlin.

"When we left Berlin Saturday night," says the statement, "the city was in the hands of old men and boys. Not an able-bodied man was to be seen. All the bridges were guarded by boys of about 14 years of age, who stood with fixed bayonets. A fortnight ago the Friederichsbrücke bridge was badly damaged by a Russian bomb. We ourselves saw the damage done.

"A corps of Amazons is being raised to defend Berlin, having been distributed calling the women to arms.

"A week ago an attempt was made to blow up the bridge of Zoologische Bahnhof without success. A Russian spy being saluted by an officer. The German soldiers look very fit and are splendidly equipped."

The correspondent also says that Anthony J. Drexel of Philadelphia, who motored through to the Dutch frontier from Baden-Baden, was most anxious that it be made quite clear that extraordinary civility was shown to all foreigners, English included, at Baden.

## FRANCE CONSERVES WEALTH.

PARIS, Aug. 20.—The French Ministers of War and Agriculture have adopted measures for the protection of blooded cattle and horses to be used for breeding purposes. Another effort in this direction will be the re-opening of certain industrial

doors, and the prevention of closing of others. The director of foreign commerce has been instructed to see if he cannot take some steps toward the conquest of German markets, and the French manufacturers procure commercial orders, which heretofore have been going to German houses.

## TIRED OF LIVING ALONE.

Living alone, Douglas H. Brunner, 61 years of age and a traveling salesman and Mrs. Elizabeth Peirce, same age, were married yesterday afternoon by Justice of the Peace Quinn. The aged couple told Deputy County Clerk Phelps that they had known each other for many years.

WAR DEVELOPMENTS  
OF A DAY IN BRIEF

An entire change in the plan of campaign may be brought about by the finding of an opening to the north by the German army in Belgium. This was admitted in an official communication from Brussels today which said the Germans "had gained ground on both banks of the Meuse" and are in contact with the allies. It adds that the "Belgians, having done all that could be expected by holding the invaders in check for fifteen days, their strategy will now be merged into the general plan of the allied armies."

It concludes with the significant sentence that the "retrograde movement does not mean defeat," implying that the Belgians have been operating hitherto by themselves in checking the Germans, while the French and British were making pre-mature attacks.

Reports were current in many European quarters today that Germany had decided not to comply with Japan's ultimatum calling for the German evacuation of Kiau Chow and the abandonment of the eastern seas by German war vessels. Holland is said to feel uneasiness in regard to her East Indian colonies, in view of Japan's attitude.

News of military developments issued by the official bureaus becomes more brief as the great masses of Germans and Austrians approach the opposing forces of the Belgians, French and British and indications of the positions occupied are entirely suppressed. This morning's note sent out by the French War Office just mentions that important events are occurring in Belgium and adds that there is nothing new along the front in Alsace-Lorraine.

The agents of the Union Steamship

Without any official announcement

from the British government, relative to the safety of the Pacific from German war vessels, the sailing of ships

That Han had made plans to send

the ultimatum to Germany regarding

the evacuation of its naval base in

North China, and had sent word to

this effect to ships flying the Japanese

flag more than a week before the ultimatum was sent is made evident by

the movements of Japanese steamers.

The ultimatum was sent August 16.

More than a week before that date, August 7, the Nippon Maru, en route

to the Orient, unloaded seven and one-

half tons of silver bullion, valued at

\$128,000, in Honolulu rather than take

the longer route to Hong Kong, where it was

consigned to the Chartered Bank of India, Australia and China. Special

permission had to be obtained from

Washington to discharge the consignment for safekeeping owing to the fact that no cargo can be taken from this port to Honolulu in a foreign bottom.

Another fact which is regarded as significant by those who are in touch with Far Eastern affairs showing that Japan had warned her steamship companies is that the Tenyo Maru, now en route from Yokohama, is coming directly to this port by the great circular route, which will bring her far north of any possible contact with the German cruisers Nurnberg and Leipzig.

the stranger came in close to shore

The craft is painted blue, with a yellow smokestack. There was no flag displayed, and no signals of any sort were given. The impression prevailed here that the vessel is a foreign merchantman seeking a harbor of refuge.

## SAN FRANCISCO FOOD COST INQUIRY STARTS

SAN FRANCISCO, Aug. 20.—The United States grand jury began today the formal examination of witnesses to discover the causes for the increased price of foodstuffs since the outbreak of the European war. For more than a week, United States District Attorney Fredon Speer, Green, Ruthven, and the department of justice and a number of government agents have been gathering evidence as to the circumstances and persons responsible for increased prices.

With a mass of information on the subject, Preston opened the attack today on the price of sugar. He has previously discussed the subject for several days with members of the grand jury, having first called up the latter on Monday of last week, following the order of President Wilson and Attorney General McFadden, at Washington for a nationwide investigation into the operations of the food speculators.

SUGAR OFFICIAL IS WITNESS. Witnesses upon whom Marshal James E. Hoban has served subpoenas to appear before the grand jury today are as follows:

Harry Thomas, secretary of the Mountain Sugar Association.

A. A. Brown, manager of the California and Hawaiian Sugar Refining company.

Robert Oxner, millionaire beet sugar producer and refiner.

Polling the questioning of these witnesses at the afternoon session of the grand jury, the district attorney plans to quiz some responsible member of Wellman, Peck & Co., wholesale grocers.

The Retail Grocers' association has adopted resolutions condemning food speculators in general and threatening to boycott those guilty of raising prices without warrant. They also themselves to assist in the investigation of those manipulating speculators who may be responsible for the future cost of foods, and to refuse to sell in future the goods of any manufacturer or importer who has advanced the prices of the war, nor have means advanced at a hundred pounds," said the Armour statement. "The maximum evidence which we are tendering to the department of justice will show the maximum increase to be approximately three-fourth of a cent a pound."

The statement continued that Canada's tariff of 25 a hundred pounds was prohibitive, and that the packer had for some time imported from Canada, not ex-

ported. The investigators say that even clothespins, a domestic product, have been raised 50 per cent.

### MEAT PRICES JUMP.

CHICAGO, Aug. 20.—The maximum increase in meat prices since the war has been three-fourth of a cent a pound, according to a statement last night by Arthur Vare, of Philadelphia, who made by Representative Vare of Philadelphia yesterday. Vare was reported as saying that the meat in this country have jumped \$4 a hundred pounds since the war opened. Armour contracted with England last week for 5,000,000 cans of canned beef.

We have not contracted with England for canned meats of any kind, either im-

port or export," he said. "We have not made any advance at a hundred pounds," said the Armour statement. "The maximum evidence which we are tendering to the department of justice will show the maximum increase to be approximately three-fourth of a cent a pound."

The statement continued that Canada's tariff of 25 a hundred pounds was prohibitive, and that the packer had for some time imported from Canada, not ex-

ported. The most important action taken at the meeting was the appointment of vice-chairmen from the different districts, who will constitute an executive committee to select a chairman and to arouse public interest in the aims of the association. The following are the vice-presidents:

W. K. Cole, Berkeley; Henry Lachman, Mission San Jose; O. E. Hodes, Oakland; M. G. Callahan, Livermore; W. E. Gibson, Oakdale; William Niles, G. I. Schneider of the Berkeley Chamber of Commerce; and J. Sherman McDowell, Alameda.

### FORM ORGANIZATION.

The Alameda County Million Dollar Exposition Association was formed last night at a meeting of the committee appointed by the Oakland Chamber of Commerce, which has been endeavoring to bring about the passing of an enabling act by the people of the state this fall to permit the issuance of \$1,000,000 bonds in the county for the exposition. Oakland, Berkeley, Alameda, Albany, Livermore, Niles, Mission San Jose, San Leandro, Hayward and other centers throughout the county were represented. A. S. Lavenson presided.

"Alameda county is going to derive as much benefit as San Francisco from the affair," said A. Jonas.

"There is a strong but enthusiastic for raising this money. Don't let the people across the bay think we are lukewarm. Oakland and the rest of the county are on the high tide of progressivism and we go shoulder to shoulder in this movement."

"In the south, where the German armies are apparently on the defensive, the French are advancing on a long line into Alsace and Lorraine, a great extent of which they now occupy, after driving back in several engagements the troops opposed to them."

made to the American Charge D'Affaires and it was to be based on information from Germany that such a course might solve the problem.

The Chinese government is not sure such a program would meet with the approval of Japan or Great Britain and the opinion is freely expressed that it will not. But China has informed the United States that, no matter what action Japan may take as a result of her ultimatum, the Chinese republic will preserve an absolutely passive attitude.

### SILENT OVER TRANSFER.

WASHINGTON, Aug. 20.—Officials here were silent today with reference to the inquiry of the Chinese government as to whether the United States would undertake the transfer of Kiao-Chow from Germany to China. It was predicted in official circles, however, that the United States would not consent to the proposal unless it had previously been assured that such a course would be accepted by both Japan and Great Britain. It was believed here that China's inquiry was made to hold to sound the United States government on behalf of Germany.

### Assassin of Juarez Denies Accomplices

PARIS, Aug. 20.—Raoul Villain, the assassin of the French Socialist leader, Jean Leon Juarez, denied at a preliminary hearing today that he had accomplices in the crime. He reiterated that Juarez had betrayed and wronged the country.

Villain, slight of build and with his blond hair brushed back so that he looked like a student, told how he had sought the Socialist leader after buying revolver, and said he would have shot him on the streets or wherever he found him. Extras announcing mobilization had incited him to anger and he declared that he spoke to no one of his intention.

Villain will probably be submitted to a medical examination later.

CHICO, Aug. 20.—Two eruptions of Mount Lassen which occurred yesterday, more violent than any previous outbursts, spread across a distance of ten miles and caused a rumbling sound plainly heard in a forest ranger seven miles away. The first eruption occurred at 7:15 a. m. and the second at 2:15 p. m. A forest ranger sixteen miles distant from Mount Lassen measured the column of steam by means of a transit and reported its height as 7000 feet.

### With Reserve Board

WASHINGTON, Aug. 20.—China's attitude toward the United States is awaiting a formal report in diplomatic circles as to whether the reply may pass through American channels of communication as that was one of the means of forwarding Japan's note, owing to the difficulties of communication.

The suggestion is made in diplomatic circles that if Germany withdraws from Kiao-Chow, abandoning it for the time being, while other powers were content in Europe, it would present a new and interesting situation. With Germany withdrawing, Kiao-Chow would naturally revert to China and it would then be incumbent on Japan to take Kiao-Chow from China in the same way Germany acquired it.

However, no information of Germany's purpose has yet come through, although such intimation as officials receive in-

dicates that it will reflect the in-

crease of its strength in Asia.

## SPEAKING OF WAR, HUERTA SAYS LITTLE

LONDON, Aug. 20.—Victoriano Huerta, erstwhile dictator of Mexico, was asked today what he thought of the European war. He called for a pen and paper and wrote:

"On the present war in Europe I should not speak. All that can be said is what I have already said in the book of a lady, which is as follows: 'God is always with the strongest; that is to say, the strongest is always in the grace of God. It is for this that one is the strongest.'

When asked to speak regarding the Mexican situation, General Huerta closed his lips tightly and made the sign of the cross as if putting the seal on. He said in English "Excuse me; nothing."

Few people at the respectable but unostentatious hotel frequented by middle class provincial merchants, where Huerta is staying, suspect that the little dark man with the Spanish looking family was a few weeks ago president of an American republic.

The general seems a trifle dazed by the vastness and the noise of London.

## PLAN COUNTY '15 ELECTION

### Business Men Urge \$1,000,000 Bonds for Exhibit

With pledges of support from every section of Alameda county, the Alameda County Million Dollar Exposition Association has started its campaign to raise \$1,000,000 by bond issue in fulfillment of the promise to the Panama-Pacific Exposition. "Alameda county will benefit in proportion as much as San Francisco by the great fair and the million dollars should be raised without difficulty in this county," was the consensus of opinion expressed last night.

The most important action taken at the meeting was the appointment of vice-chairmen from the different districts, who will constitute an executive committee to select a chairman and to arouse public interest in the aims of the association. The following are the vice-presidents:

Whereas, The telegram sent to Washington at the psychological moment, when San Francisco was appealing to Congress for the great exposition, was effective in securing the decision in favor of San Francisco:

Now, therefore, be it resolved, that we, the Committee of One Hundred, representing all sections of Alameda county urgently request the voters of the State of California to vote for Amendment No. 2 to the Constitution, which will enable Alameda county to legally bond itself in the sum of one million dollars for said Exposition.

W. E. Gibson recalled the efforts of the Chamber of Commerce to have \$1,000,000 raised by bond issue and told how Congressman Knowland had been notified that if necessary Alameda county would get behind a bond issue to support the exposition.

"Our country cannot help being a great beneficiary from the fair," remarked Gibson. "It isn't only a San

### GOLD IN CASKS.

PARIS, Aug. 20.—American efforts to raise the relief of stranded Americans in France arrived here on a special train from Cherbourg today, bringing with them five sealed trunks, each containing 1000 francs and 1000 francs.

The money was to be sent to England for the use of the American Consul-General in London.

Concerning the use of Americans in Germany, Consul-General said he had received no information.

"Americans are unable to get news of the war or to communicate with their friends in England or America."

Congressman Gardner of the American relief committee said today he believed transports could easily be sent by the United States to Bergen, Norway, for the use of Americans in the peninsula.

Frederick Wright, a physician of Long Beach, Calif., who had come from Germany, said he had

been unable to get news of the war.

the present war. Others, however, suggested that it would be better to meet in Holland, a country which they regarded as even more neutral than Italy.

### WHO WILL SUCCEED?

tioned are Cardinals Giuseppe Sarto, Ferrata, Aglardi, Pompili and Serafini, the last named ex-nuncio of Mexico.

There is much interest of where the body of the Pope will find its final resting place. It is recalled that carrying the body of Pius IX from St. Peters to Lawrence caused a riot. For this reason the body of Pope Leo, although he had expressed a wish to be buried in St. John Lateran, where his

as the last Pope feared disorders. It is believed that Pius X chose St. Peters for his tomb in order to avoid the possibility of unpleasantness.

The Giornale d'Italia to day says that the Pope recently drew up new rules to govern the concaves and that these abolished the right of the veto of foreign powers, thus freeing the cardinals in spiritual matters. The new rules also, the paper says, modified some of the formalities concerning the duration of the conclave.

The arrival of Cardinal Della Volpe, chamberlain of the church, from Italy, today was anxiously awaited. As chamberlain he will direct the Holy See temporarily and will conduct the traditional ceremony in which the Pontiff is officially pronounced dead.

In this ceremony the chamberlain lifts the covering from the face of the dead and with a silver hammer touches the forehead three times, saying each time: "Guiseppe Sarto."

When there is no reply he announces: "The Pope is really dead."

This is done in the presence of the cardinals, a few intimates of the dead and the penitents of St. Peter's, who will preside the 12th, for the tomb.

Later the body will be removed to another room, where it will be embalmed.

### HISTORIC CHAPEL.

The sacred college will decide on the day on which it will be transported to St. Peter's for the three-day's chapel sacrament before burial. The funeral service will be in the Sistine chapel.

### GRIEF OVER WAR.

Those interested in coincidences point out that the Pope died on August 20, exactly 11 years and 1 month after the death of Pope Leo, on July 29, 1903.

It is expected that the conclave for the election of a Pope will be held on September 3, after a delay to give time for the cardinals from several countries to arrive. Even so, it is doubtful whether Cardinals Gibbons and O'Connell could reach here by that time from the United States, and Cardinal Cavalcanti from Rio de Janeiro, owing to the partial suspension of the steamship service. It is stated, however, that notwithstanding the war special trains will be put at the disposal of the cardinals in Europe.

Monsignor Zampini of the Pope's household, assisted by the secretary and the Pontiff's valet, laid out the body and placed the crucifix in the hands and stationed eight crucifixes about the bed.

It so happened that Cardinal Della Volpe, the chamberlain, Serafini, Vannutelli, dean of the sacred college, and Antonio Aglardi, chancellor of the Holy Roman Church, were absent from Rome, it was announced that Cardinal Della Volpe would return today, and, immediately on his arrival, invite the members of the sacred college to decide on the funeral ceremonies, which will occupy nine days.

### QUIRINAL ACTS.

Premier Salandra has sent notification of the death of the Pope to the authorities throughout the kingdom, instructing them at the same time to take part in the funeral ceremonies if invited.

For the first time since the fall of the temporal power, a Pope has died without it being necessary for the Italian authorities to take any special precautions.

When both Pius IX and Pope Leo passed away, the government found it advisable to occupy St. Peter's square and the principal thoroughfares leading to the Vatican with troops, ready to intervene should occasion arise.

In case of the death of Pius IX, however, in consequence of his death, such precautions were not necessary.

Father Francis Xavier Wenz, general of the Society of Jesus, also died in Rome this morning. Father Wenz was called the "White Pope," a nickname used to indicate his name behind the throne. The late Pontiff was generally known as the "White Pope."

It is believed that the body of Pope Pius will be placed in a casket this afternoon and the lying in state will be in the same throne room where so many thousand people were admitted to the presence of the late Pontiff.

The election of a Pope for the repose of the soul of Pope Pius began in the death chamber at 1 o'clock this morning.

### CARDINALS SUMMONED.

Throughout the day Doctors Marchi and Sartori, their wives and children, were summoned to the Quirinal, to stimulate their patient and keep him alive. The cardinals were summoned to the Quirinal, to the room in which the Pope was suffering. Later, the faithful witnessed the impressive and heart-breaking scenes, especially when the pontiff, drawing himself from time to time, spoke. Once he said:

"In ancient times the Pope, by a word, could have staved off the slaughter, but now it is impossible."

Prayers were said by thousands and the bells of the churches sounded when the pontiff was carried upon all the roofs. When the court learned of the Pope's condition, there was the deepest sorrow.

Cardinal Giuseppe Sarto, a man known to have been very serious, was communicated to the queen mother.

Masses for the repose of the soul of the Pope were administered by the priests of his bosom. The sisters had been numerous denials from the

Pope. His indissension was serious. Cardinal Merry del Val knelt over the bed, where other car-

## CHURCHES WILL OBSERVE FUNERAL SERVICES MASSSES WILL BE SUNG FOR REPOSE OF DEAD

Preparations are being made for special services to be held in all the local Catholic churches in memory of Pope Pius X.

At the same hour that the services are held in Rome over the body of the dead, commemorative exercises and prayers will be said here. Children from all the parochial schools of the bay cities will lift up their voices in prayer, and will attend the requiem masses with their elders. Representatives of the Knights of Columbus and delegations from all the Catholic bodies will be present. In the schools and the colleges of the church tributes of respect will be tendered the late Pope Pius X.

The Catholic churches will be draped in black, and the galleries and altar rails will be

decorated with the colors of the church. The cards will be held in all the masses. Early this morning the pious attended the churches and the matins were very impressive.

Giuseppe Melchiorre Sarto, known to the world as Pope Pius X, was elected to the pontificate on June 1, 1903, and during his occupancy of his exalted office as head of the Roman Catholic church, he was the most prominent man of the most moment in the church, ecclesiastical and governmental, with which the Holy See has had to deal in modern times.

and his wife, Margherita. Giuseppe's early career was largely spent by the village priest. Who took a liking for the boy, taught him to read and write and drilled him into the youthful head the rudiments of Latin. At the age of eleven years he entered the seminary, and for four years barefooted, until he reached the outskirts of the village, where he would sleep on his shoulder, he had to appear before the Superior.

**THREE DAYS DRAVE CRUISE  
DUN JARIS CRUISE  
FIRES IN KANSAS**

Electricity Generated by Wind-Whipped Grass Against Wire Fences.

TOPEKA, Kan., Aug. 20.—On in Rawlins county a woman put some matches on the window sill in the kitchen. It was a bright, sunshiny day, and a few minutes afterward the woman returned to the kitchen to find the whole side of the room on fire. The sun rays shinning through the window pane had ignited these matches and they had set the building on fire.

At Holton a building was found to be on fire. It was almost new, and no cause for the fire in a corner of the roof could be found until some one discovered that a piece of tin had not been painted and the sun rays on it had set the roof afire.

A bubble in a window pane of a home in McPherson county concentrated the sun's rays on a spot on a lace curtain and set it on fire.

rooled edge of a glass dish bowl in a home in Mitchell county set at table runner on fire and the home burned.

It is not unusual to hear of grain being set afire by the sun shining upon bright metals. The peculiar thing about the fires caused by the sun's rays is that they happen at any time of the year. It would ordinarily be supposed that the sun's rays would not be concentrated into enough heat upon a cold winter day, but some of the fires in Kansas have recently come in January and February and one in December.

Another seemingly impossible fire cause is static electricity generated by wind whipping blades of grass against wire fences. About thirty prairie fires which resulted in loss of hay and several homes and barns are said to have been the direct result of this sort of flame generator.

**BLIND PIG HOUSES  
RAIDED BY THE POLICE**

RICHMOND, Aug. 20.—After contemplating their movement for several nights, Chief of Police Charles H. Walker, with Deputy E. N. Reitz, last night conducted a midnight raid on two of the city's most notorious blind pig houses. The two houses, located on the corner of 11th and 12th streets, were filled with a large amount of illicit beer and whisky. The keepers of the houses are Mike Rathbun, whose place is on 11th street, near the sunken, and Joe Givens, whose establishment is on 12th street, at the corner of Santa Fe and Lombard avenues.

The raid on the Rathbun establishment was made, and the native sons of Piedmont parlor call on all local branches of the order to be loyal, and extend an invitation to the general public to boost for boys.

**To Raise Funds  
Plan Big Party**

ALBERT WEBER

In order to raise funds for furthering the work of the forty-piece band at the Hotel New York, the National Sons of the Golden West, a big theater party is being arranged by the order to be held at the Oriental Auditorium on Tuesday evening, September 1.

The band is composed of the younger members of the order and is under the direction of Professor H. W. Lyle and a staff of musicians. The work is progressing satisfactorily, but in order to procure new music and distract other expenses necessarily attached to the organization the benefit theater party was planned, and the native sons of Piedmont parlor call on all local branches of the order to be loyal, and extend an invitation to the general public to boost for boys.

The Committee of arrangements consists of Thomas Toching (chairman), J. L. Thomas, Edward A. Theis, Albert Weber, H. W. Lyle, H. L. Hayes, Frank Burnett and Phil M. Walsh.

**COUNCILMEN IN HEATED  
DEBATE IN RICHMOND**

RICHMOND, Aug. 20.—Personalities were freed, walked in at last night's meeting of the city council when the protests of the mayor and the police against the assessment of the fire department. Seven arena were up for hearing. The principal contentions were between Hause and Councilman Ludwig.

Ludwig, in regard to the assessments, the world around the character of the work implied that his property had been damaged by the work, that the proceedings under which the assessments were made were not correct, and that he had not been given a chance to be heard before a half dozen other complainants.

Ludwig characterized Hancock as a habitual complainer, declaring openly that he had been compelled to have his property assessed at a higher rate than his neighbors.

There was not a complaint forthcoming, Hancock challenged City Engineer Chapman's attitude, holding that the place called for one assessment, but not for two, and maintained that the work was not started until the time Hause had expired.

Thus it was that in his very first announcement he made use of the phrase that became a watchword of his whole career and the slogan that he sounded in his every public act. "To review all things in City Hall. In the light of these words, and upon his pontificate in the history of that pontificate to be read and his place fixed among the supreme rulers of the church."

The monsignor said the sixty-six cardinals would start for Rome from their various countries as soon as they learned of the Pope's death. He questioned whether some of them would be able to reach Rome in time for the conclave because of the war in Europe.

The rules of the Church, the monsignor explained, required that burial of the Pope the ninth day after death, and on the day following, the conclave of cardinals would be held for the election of the Pope's successor. Monsignor Mooney said that of the sixty-six cardinals, thirty-five are in Italy and the adjacent countries could easily furnish the remaining number necessary for a quorum.

Cardinal John Murphy Farley is at present in Switzerland, according to Monsignor Mooney, who on Tuesday received a telegram from Cardinal Farley asking the monsignor to endeavor to secure passage for him and his retinue on some government tranship returning to the United States.

OKLAHOMA PEANUT  
ACREAGE GROWING

Crop Considered Profitable,  
and Late Planting Being  
Well Encouraged.

OKLAHOMA CITY, Aug. 20.—Although reports of poor crops have been circulated by the heating and cooling reports that are being received from many sections of the State where peanuts are being grown are highly encouraging, and it is expected that the total yield this year will be greater than that of last year by half.

The weather throughout the State is in such excellent condition that there will be a great amount of late planting, which will make splendid yields, and in sections of the State where cotton and other crops have been seriously damaged by the heavy rains, and where replanting of the crops is likely to prove losing, cotton has been suggested that peanuts be started as they will thrive in weather conditions that would prove detrimental to other crops.

To encourage the late planting of peanuts the price of seed peanuts on the local market has been reduced from \$2.50 a bushel to thirty cents to \$1.00. There are plenty of good seed peanuts available on the local market, and peanuts can be planted any time during the present month with the assurance of a good yield.

Not only is the cultivation of peanuts one of the safest that can be planted in the State, it also promises a great advantage of being one of the most feed crops, as over a ton of peanut hay can be realized from an acre of peanuts and this hay has the same value as alfalfa for feed, according to enthusiasts of the crop.

ONETAH COUNCIL WHIST  
PARTY WELL ATTENDED

RICHMOND, Aug. 20.—Fourteen tables of which were played last night at Onetah Council, degree of Pocahontas, in Pocahontas. The scores were very even and left the question of winners to doubt until the very last.

For the scores, see our column above this article. Mrs. T. P. Parker, second; Mrs. A. Madson, third; Mrs. C. C. Parker, Mrs. H. H. Parker, Mrs. A. Madson, Mrs. C. C. Parker, and A. Madson, fourth.

The tournament consisting of Mrs. Mary M. Nixon, Mrs. Mary Miller, Mrs. Jessie Tamm, is to be concentrated on the capable manner in which the affair was handled. Following the rounds, refreshments were served and dancing was indulged in.

# FRESS IS UNITED BEHIND STRATTON

## Leading Journals of California Advocate His Election to the Bench

In this issue of THE TRIBUNE we publish excerpts from the interior press regarding the candidacy of Frederick S. Stratton for Justice of the Appellate Court short term. The office is not a spectacular one and probably will not be highly contested upon the United States circuit, and the gubernatorial contest. It is therefore remarkable that the journals, quotations from which are given below, should make the favorable comment which they have in every instance in regard to Mr. Stratton.

The quotations and excerpts could be bettered, but enough citations are made to indicate the overwhelming support of public opinion.

Mr. Stratton announced at the outset that he would make a dignified contest for the office and that he did not care to use methods which savored of the quid, or ward politics, in view of the fact that the office is an office of the state and he is as aspirant for a high judicial position.

Over seventy-five clubs have been formed throughout the first judicial district in Mr. Stratton's behalf, and this voluntarily, and without himself being a participant in the meetings or organizations. He has been endorsed by not only

Fresno, Marin, San Francisco, Santa Clara and San Benito.

Among the forty names on Mr. Stratton's campaign committee are the following and which we note: Warren G. Scott, Mayor T. C. Coogan, J. C. Campbell, John L. Partridge, Warren Olney, ex-Judge Ellsworth, Warren Olney, ex-Judge Ralph C. Harrison, Wm. H. Watson, Frank P. Deering, Robert M. Fitzgerald, Sam Bell McKeye, Wm. R. Davis, Harmon Bell and Edward E. Van Fleet.

United States Circuit Judge William C. Van Fleet authorizes the use of his name in Mr. Stratton's behalf. More than 800 attorneys have signified in writing their endorsement of Mr. Stratton, and over 800 papers in the First Appellate District give him their support.

Santa Cruz News, July 21, 1914.

Stratton Gaining Votes. Every Day Friends of Fred Stratton for the Appellate Court are doing a lot of effective work for him. Stratton is an engaging personality that wins and holds for him very strong and active friends. This has been true of him all his life. It is a faculty, or quality, that stands him in good stead now.

Stratton has been endorsed by not only

private journals as well.

Mr. Stratton has felt that he would not display sign cards in stores, places of business, or in public places, or along the highways on telegraph poles and fences. He has adhered to that determination. Further, he has agreed, for financial assistance, Mr. Stratton has felt that he ought not to deliver addresses before political or other gatherings, for the reason that remarks of any character from a jurist are liable to be misunderstood, and are in the very nature of things anathema to the public. He has made more than 200 invitations to various gatherings, but has not spoken in a single one. His determination is not arrived at from any discrimination to meet voters, but simply he does not care to be elected to a high judicial office unless he could do so alone methods which are approved by his own conscience, and his own sense of justice. He is an aspirant.

In many instances only excerpts are given from the press, and THE TRIBUNE does not care to enumerate the papers favorable to him simply by name, but quotations are made and directly explain themselves.

F. S. Stratton for the Appellate Bench. The people with an upright and impartial judge. For twenty years before the public not a word has been said against Frederick S. Stratton. He has lived in Oakland all his life, and the people who have known him from boyhood are his friends today. The people might for awhile be deceived, but in a case like this of Mr. Stratton, his favor with the multitude has lasted over twenty years.

The voters are realizing on every state that it is not a question of Mr. Stratton's fitness for judicial office, but rather

it is a question of consultation that a man of his time should consent to go upon the bench. If he is urged that he has not held court before, it could likewise be said that in the Supreme Court of the United States the most august tribunal of the world, has from time to time employed members of cabinets and others who have never sat upon the bench.

### QUIZ FIANCÉE ON SUICIDE'S ESTATE

Miss Emily Hoge Testifies  
Before Judge Waste; Public  
Administrator Appointed.

Search on the part of Public Administrator H. B. Neumann for an estate of the late Ernest W. Modeen, whose second attempt at suicide resulted successfully last December, was taken up in the Superior Court today when Miss Emily Hoge, former fiancee of Modeen was questioned by Attorney Abe P. Leach before Judge Waste. As a result of the appearance in court of Miss Hoge, the public administrator was appointed to handle the estate.

Mrs. Hannah Mesow, rival of Miss Hoge for the affections of Modeen, did not appear in the case today although she was sought as a witness.

Miss Hoge testified that she did not know very much about the estate beside the fact that the automobile in which Modeen attempted suicide by driving over a cliff on the tunnel road in June 1913 had been turned over to the automobile company to satisfy a repair bill. The public administrator asked for letters of administration at the behest of certain relatives.

Upon the death of Modeen, Miss Hoge, his fiancee, in whose home at 2001 Lincoln Avenue he had lived prior to his successful attempt at suicide, collected \$2,000 life insurance.

At the time Modeen drove over the cliff on the Tunnel road the two women quarreled at the Roosevelt Hospital in Berkeley while he was writing between life and death. Mrs. Mesow, divorced wife of Frank Mesow, claimed his affection in that he had promised to marry her and take her in order to Europe. Miss Hoge said that he was engaged to her and that she would care for him, which she did, nursing him back to health only to have the experience of his second attempt at death being made from her home where he slashed his wrists and then plunged into a tank of water at the Alameda Baths.

### California Banks Sent Shipment of Currency

According to reports, there is more currency being circulated in the banks at this time in California than heretofore, owing to the long expected shipment from Washington and which shipment was not occasioned by the Mexican war. Oakland bankers declared that it is possible that a good portion of this currency will get into circulation here, although Californians are so used to gold that it is not thought that they will immediately accustom themselves to such a general use of paper money as prevails elsewhere. Although everywhere else in California, that is the usual medium of exchange, "of course, as a purely patriotic proposition it would be a good thing for us to use currency, so that it would lessen the danger of gold being secured for shipment abroad," said one of the local bankers. "However, in California, there is little chance of gold being secured in any sufficient amount to be sent away."

"Inquiry at the Oakland banks reflects the fact that since the shipment of currency from the East a little more of that sort of money finds its way from Oakland banks than before, but the proportion of the increase in its use is so small as hardly to be noticed."

Reporting the Panama-Pacific International Exposition, we will receive little aid from our visitors from the East, who know no other medium of exchange.

### Victory for Knowland in South, Is Confident Claim

LOS ANGELES, Aug. 20.—A. E. Eckstrom, president of the Knowland Senatorial Club, tonight issued a statement in which he said: "I am confident that it is possible that a good portion of this currency will get into circulation here, although Californians are so used to gold that it is not thought that they will immediately accustom themselves to such a general use of paper money as prevails elsewhere. Although everywhere else in California, that is the usual medium of exchange."

"Of course, as a purely patriotic proposition it would be a good thing for us to use currency, so that it would lessen the danger of gold being secured for shipment abroad," said one of the local bankers. "However, in California, there is little chance of gold being secured in any sufficient amount to be sent away."

"Inquiry at the Oakland banks reflects the fact that since the shipment of currency from the East a little more of that sort of money finds its way from Oakland banks than before, but the proportion of the increase in its use is so small as hardly to be noticed."

Reporting the Panama-Pacific International Exposition, we will receive little aid from our visitors from the East, who know no other medium of exchange.

### ANSWER TO WATER SUITS ARE FILED

Chief Deputy District Attorney Walter J. Burpee today filed answer in the Superior Court to suits filed against Alameda county by Mrs. Phoebe A. Hearst and the Spring Valley Water Company to annul proceedings through which the Pleasanton Water District was formed several weeks ago. The matter was to have been tried before Superior Judge William F. Finch tomorrow, but will be continued until next week.

### TRY TO OUST RECEIVER.

Claiming that W. C. Holliday, receiver of the California Mutual Life Stock Company, has been derelict in his duty to the extent that the stockholders have suffered a loss of certain collateral, A. S. Bufflinch today commenced suit in the Superior Court to oust him from the receivership. The company became insolvent in 1910 and the plaintiff in the suit declares that the receiver has made no effort to collect notes aggregating \$1,965.

### OIL PRICE AGAIN CUT.

PITTSBURGH, Aug. 20.—The oil purchasing agencies announced another cut in prices today. Pennsylvania crude going to \$1.45, a cut of 2 cents. All other grades were cut 2 cents.

### EVIDENCE MAY SOLVE NELMS MURDER

Gory Traces in "House of Mystery" Fasten Suspicion Upon Innes Couple.

EUGENE, Ore., Aug. 20.—Gory traces found in the "House of Mystery," investigated by Marshall Nelms, brother of the supposedly murdered woman, and the evidence on which Victor E. Innes, former Nevada United States District Attorney and his wife are being held awaiting a murder warrant from San Antonio, Texas. The affidavits of Nelms, who traces his sisters, according to his statement, to the cottage where he is alleged that they were murdered, have been supplemented by several grim souvenirs leading to a suspicion of murder. A bit of vertebrae charred as by fire, a silk handkerchief—with the initial "E"—declared to stand for Eloise, a cauldron, large enough to hold a human body, and badly charred by acids, silk stockings, declared to have belonged to Beatrice Nelms, and several other clues are in the hands of the authorities.

Innes, still held in prison in Eugene, awaiting the extradition papers, will make a desperate fight against extradition, according to announcement here. Attorney John McCourt of Portland, Ore., will handle the case. Requisitions have been issued by the governor of Texas.

### DESTROYED BY ACIDS.

The trail of murder, which was taken up by Nelms, following news that letters had been received, presumably from his sister, Mrs. Eloise Nelms Dennis, to the effect that she had killed her sister and planned to kill him, led through several cities to San Antonio. The family home of the two women was at Atlanta, Georgia. The thread of evidence, as unearthed by Nelms, tells the story of the girls being lured to Atlanta, and there being killed, their bodies being destroyed by acids.

Victor E. Innes, who together with Mrs. Innes was arrested at his home near Horn, this county, charged with murder in connection with the mysterious disappearance of Mrs. Eloise Nelms Dennis and her sister, Miss Beatrice Nelms, will remain in the Lane County jail until the regulation granted yesterday by Governor Colquitt of Texas, arrives, when he will make a strong fight against being taken back to Texas. This conclusion was arrived at yesterday when he talked with his attorney, John McCourt of Portland, over the long distance telephone. McCourt will not come to Eugene until the requisition comes.

Innes still refuses to talk regarding his case, other than say that he knew Mrs. Dennis, having secured for her a divorce from her husband in Nevada.

### ENGAGED TO MARRY.

Innes, while acting as Assistant United States District Attorney at Carson, secured a divorce for Mrs. Dennis, and is reported to have become engaged to marry her. In Nevada it is said that he appeared to exert a peculiar influence over her, and Mrs. Dennis' mother and brother declare that she intrusted large sums of money to him for investment, presumably in Mexican properties.

Young Nelms followed the tortuous trail of the two women from the time they left their home in Atlanta, early last June, and traversed the Southern States into California where the hordes of police officials who had been put on the case completely lost the scent. Finally his investigations led him to a tiny, vine-covered cottage at 120 Wilkins Avenue, in San Antonio, Tex., and it was in this cottage that he declares his sisters were murdered.

This cottage was occupied during the month of June by Innes and his wife. This much is admitted by Innes, but he denies that Miss Nelms and Mrs. Dennis were ever there during his occupancy.

Young Nelms declares that he traced his sisters to this cottage, and his subsequent investigations are submitted as proof that some sinister deed was done within its walls during the month that Innes lived there.

### MENTAL CONDITION CAUSE.

William E. Fedler, who passed a fictitious check after asserting that he was anti-prohibition candidate for Governor, was acquitted by a jury in Superior Judge Gordon's court today on the grounds that he was not in his right mind at the time of his act.

P. J. Klotz, formerly of San Antonio, Texas, was the only name given of those killed. Many workers were buried under the ruins and smothered. A fire enveloped the structure after its collapse. No further details were given.

### CAVE IS HIDING ALLEGED SLAYER

Posse Closes in on Accused  
Japaneuse at Carmel-by-the-Sea.

CARMEL, Aug. 20.—A rugged cave in the fastnesses of Point Lobos,

to Tiburcio Vasquez, the celebrated bandit, is believed today to be the hiding place of George Kodoni, the Japanese photograph, now sought in connection with the disappearance of Miss Helena Wood-Smith, noted landscape artist of Carmel-by-the-Sea.

Fresh footprints in the cavern led to the theory today that the fugitive Japanese has taken refuge in this historic hideaway place, and that here, heavily armed and well provisioned, he is eluding the posse scouring the country for him.

### CLOSE IN ON HIM.

Acting upon this theory and the fact that Kodoni was seen in the chaparral of Point Lobos early Wednesday, a posse of county authorities and Carmel authorities began closing in on the rugged cavern early today.

The cave lies in the roughest part of Point Lobos, several miles from the Allen Packing Company's fisheries, where Kodoni was employed for eight years.

Kodoni is familiar with every inch of ground about Point Lobos. During his residence at the fishery he tramped over the rugged slopes seeking points of vantage to photograph landscapes or engaging in his queer antics, then puzzling his fellow workers, but now understood to have been in Kodoni's weird mystic cult, of which he was a leader.

### POSSE WELL ARMED.

The posse scouring Point Lobos is well armed and determined to capture the elusive Japanese. At daybreak today it began its hazardous task of slowly closing in on the historic cavern.

This is the eighth day of Miss Smith's disappearance, and those of the searchers who believe she was slain and her body cast overboard, either from Point Lobos or into Carmel bay, are scouring the shores today in the hope that the waves may solve the mystery.

In usual cases of drowning, the corpse rises to the surface of the water in eight days. On this account, extraordinary vigilance is being exercised today in the search of the bay shores. Grappling irons are being used, and there are many who believe that the body will be recovered before nightfall.

### BUNGALOW SEARCHED.

Renewed search of Miss Smith's bungalow was made today. Mrs. Cooks believed that Miss Smith was slain and her body cast overboard, either from Point Lobos or into Carmel bay, are scouring the shores today in the hope that the waves may solve the mystery.

In usual cases of drowning, the corpse rises to the surface of the water in eight days. On this account, extraordinary vigilance is being exercised today in the search of the bay shores. Grappling irons are being used, and there are many who believe that the body will be recovered before nightfall.

The search revealed not even the slightest clue. There is nothing to show any sign of a struggle in the small but attractive dining room. The remnants of a meal are still on the table.

Magazines and papers lie undisturbed in the cozy sitting room. The studio is as Miss Smith left it, with an unfinished canvas on the easel and paints still upon the palette.

Exteme was caused today when Mrs. Cooks, who before her marriage was a maid, protested against her treatment of her, she said, by replying: "Why don't you go? I will give you \$200 a month and the child."

### BALKED AT DRESS SUIT.

Farnham objected to the round of social gatherings she says, and made a scene on an occasion because he had to wear a dress suit at the theater.

In rage and anger, while they were at home, recently, Mrs. Farnham set forth her husband told her: "Hang it all, I will leave you now, and thereupon went toward the clothes closet where his pistol was kept and said: "I'll show you" reaching for his pistol, whereupon the plaintiff and other members of the family, in alarm, left the room.

Frequently during the married life of the parties, the wife charges Farnham said to her: "I don't intend to leave a gay

widow or a divorcee. I'll fix so you won't get anything."

Mrs. Farnham, who before her marriage was Miss Evelyn Clifford, was a belle of the San Francisco smart set. She was a graduate of Irving Institute, an exclusive school for girls, and with her sister, Miss Elsie Clifford, had just made her bow to society when she became engaged to Farnham.

TRYING ON  
CHILD'S PRESENCE.

While the six-year-old son of the couple, Sylvanus Farnham Jr., was ill in the hospital, November 26, 1913, the complainant declares Farnham visited him much the worse for liquor and swore at the expense of an operation that had just been performed.

While at dinner one evening in Oakland Farnham found fault with the meat that was being served to him. Mrs. Farnham says, and cried out loudly, in the presence of their child: "Ho! ho! this stew?"

On the same occasion, it is charged, the couple had a meal in a restaurant, and the waiter, serving fancy dishes, saying: "Dam it, more expense."

Soon after when the minor child was brought to the dinner table, carrying his pet cat, Farnham objected to the presence of the feline and yelled: "Get out of here! This dining room is no place for cats."

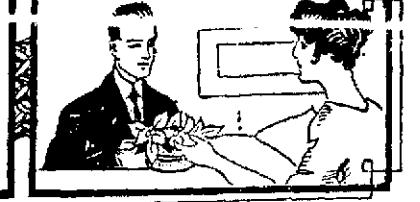

On another occasion said defendant stated and declared to said plaintiff, that he was a member of a whiskey club, consisting, he said, of six members, and that he and the other members chipped in and contributed \$100 and bought a gallon of whiskey which they consumed in a night.

MISS THERESA HARRISON, WHO IS THE GUEST OF FRIENDS IN SAN MATEO—Fraser photo.

HERE is quite a Newport flavor to the moonlight-bathing party planned by an inspired hostess down the peninsula. It is to begin with a fish dinner Saturday night. Fish dinners are very popular at Newport. Usually they begin with steamed clams that are necessarily a slow informal course with the skillful extricators offering their services to those less skillful.

Then there is broiled live lobster. Afterward, fried sand

dae and then baked shad, and if anyone is equal to it by this time, cracked crab. At least this was the menu of one unforgettably dinner.

After the dinner Saturday night there will be a dance, and later a drive to the beach of Half Moon Bay, where the guests will bathe by moonlight at midnight. Decidedly as they do things in Newport.

There is a New York idea that hasn't yet found its way to California. Last week at the Lake Mahopac Country Club they gave a dance on the tennis court. It demonstrates the advantages of the new wood floor tennis courts. They are quite as good for dancing as for tennis, with delightful possibilities of picturesque effects and informality. No one could be impressed by formal dancing on a tennis court.

At the Lake Mahopac Club Japanese lanterns were strung about the court, and the music was stationed on the clubhouse piazza. Guests wore summer gowns and white flannels. It was altogether a gay success and might be emulated by the Joe Grans at Burlingame, or the Wallace Alexanders, when their court is built.

MISS MARGUERITE A HOSTESS.

Mrs. James K. Moffitt was hostess at an informal tea yesterday afternoon at her home in Piedmont in honor of her sister-in-law, Mrs. John Lynch of New York. Mrs. Lynch, who was the daughter of Mrs. and Mrs. John Lynch of New York, has been visiting her mother, Mrs. James Moffitt Sr. in Piedmont, invited to meet her yesterday a number of her old friends who included Mrs. Leon Bocquera, Mrs. Henry Dohrmann, Mrs. Edson Adams, Mrs. George Whetstone, Mrs. Helen Nichols, Mrs. E. Howard, Mrs. Grace Sutton, Mrs. Harriet Joliffe, Miss Mary Joliffe, Miss Gertrude and Miss Virginia Joliffe of San Francisco, Miss Mary Lunham, Mrs. Jess Langdon, Mrs. Robert Lee Stephenson, Miss Edwards, Miss Ethel Valentine, Mrs. Charles W. Ford, Miss Genevieve and Miss Natalie Durney.

TEA FOR MISS EMMONS.

Mr. Channing Hall and Mrs. Alan Field again repeated their pretty tea at the Hotel Oakland this afternoon in honor of Miss Marjorie, the fiancee of Albert Coogan. Covers were laid for 14 at an attractive table in one corner of the lounge. Beside the hostesses and guest of honor, there were present Mrs. Harry White, Mrs. Alfred Dunn, Mrs. Edward L. Johnson, Mrs. George Clough, Miss Roberta Durney, Miss Beverly Nason, Miss Hazel Holt, Miss Jessie Hall, Miss Emmy Lemcke and Miss Marguerite Durney.

Miss Emmons whose wedding to Albert Coogan will take place in October, is still awaiting news of her trousseau that has not yet come. First, the bride, Miss Gladys Emmons, is going to the uncertainties of transportation, the boxes of dainty lingerie have not arrived and so far cannot be traced.

IN HONOR OF MISS OUTRIM.

Miss Evelyn Outrim and her fiance, Mr. Sargent, will be guests of honor at a dinner to be given tomorrow by Mrs. Harry Jones at her home in Piedmont. It will be a family party, the guests including Mrs. Charles Tucker, Mrs. Outrim, Miss Grace Outrim, Mr. E. L. Sargent, Howard and Alden Sargent.

Invitations for the Outrim-Sargent wedding are out and about 100 guests will be present at the ceremony and reception at the Tucker home in Piedmont. The bride, who is one of the prettiest of the young women, will be attended by her sisters, Miss Grace Outrim, the maid of honor, Miss Alice Ziegelmeyer, Miss Marguerite Black and Miss Adele Engelhardt will be the bridesmaids. Howard Sargent will be best man and the groom will be his brother and Joseph Frederick Hunt.

## Swimming for Beauty

(By Lillian Russell)

Copyright, 1914, by LILLIAN RUSSELL.  
**W**HEN the ancient Athenians wished to designate a man as good for nothing they would say, "He cannot even swim," which shows how important the exercise was considered by the Greeks.

Even with the moderns it is no means a common accomplishment, notwithstanding we are so often placed in situations in which it may, at any moment, become of more importance to us than all the rest of our boasted acquirements.

As a means of physical culture swimming takes a high rank. It is free and graceful, it is a healthful action to the muscles. The contact with the animated waves refreshes and invigorates the body; the sensation of conquest of a new element dilates the whole being with a sense of triumph and power.

Every one should learn to swim. "Beauty, the mother of Love," according to one of the significant myths of the ancients, "is the daughter of the waves and of light." The maidens of the Pacific islands swim like water nymphs. So do the Italian, Mexican and South American women. Our American women need not be ashamed to follow their example in this accomplishment.

I, therefore, recommend my fair readers, as well as my readers not so fair, who have not already learned, to commence their lessons at the earliest opportunity.

Remember: You can never tell when your enjoyable accomplishments may be the means of saving a life.

G. A. S.: Massage with a good hair tonic will give your fair new life and stop the falling hair. Scalp massage is excellent for falling hair. It makes the scalp flexible and gives the hair more nourishment. Dull hair will become glossy and full of life. It does not take much time, is no great tax on patience, and it helps the hair wonderfully. Each night before retiring take your hair down, brush it carefully, then mass your scalp for ten or fifteen minutes. Use a good hair tonic when massaging the scalp. It will make your hair longer and heavier. If you will send me a stamped addressed envelope I shall gladly send you a formula for an excellent hair tonic with instructions for scalp massage.

MRS. R.: I do not believe in internal remedies for enlarging the bust. Gentle massage with warm

cocoa butter, around and upward along the glands will enlarge the breasts. The following exercise is helpful to develop the bust. Double your fists as tightly as you can, bringing them together in front with the arms raised as tightly as you can, bringing them together in front with the arms raised as high as possible.

DO THIS 100 TIMES EVERY NIGHT. OTHER EXERCISES THAT INVOLVE THE MUSCLES OF THE ARMS AND CHEST WILL DEVELOP THE BUST. Eat fat mutton chops, plenty of butter, and drink coffee and milk. Sleep as much as you can, and don't worry. Deep breathing will also help to develop the bust. Any hard pressure tends to flatten the bust, so if you wear forms of any kind they should be made as light as possible.

GAY EYES: This is an excellent balm for tan or freckles. One-fourth ounce benzoin, one-eighth ounce chloride of soda, eight ounces rosewater, and two ounces orange flower water. Mix. Pathe the face and arms with this lotion at night before retiring.

GOLDEN LOCKS: I cannot give you any information in regard to the article you mention. Nearly all these hair removers remove the superfluous hair with one application, but in time the hair grows back again. The electric needle is very effective for removing superfluous hair, and if the growth is heavy I would advise you to have it removed this way.

SUMMER IN BERKELEY.

Mr. and Mrs. Charles Frederick Eaton of Santa Barbara, whose beautiful Montecito place, "Ilio Rivo," is leased to the Frank Proctors, have spent the summer there. They left a few days ago for the south and will be guests at the Proctors until the Proctors move to Oakland next month. Mr. and Mrs. Eaton are the parents of Mrs. Julius Kimball (Dorothy Eaton) of San Francisco.

BRIDE-ELECT FETED.

Miss Ethel Outrim, whose wedding to Henry Kohler will take place next Wednesday, has been entertained at several informal teas and shower parties in the past week. Miss Rita Nichols was a recent guest in her honor and last Saturday Miss Minnie Clampus gave a tea for her. Yesterday Miss Outrim was guest of honor at a bridge party given by Mr. and Mrs. Fred Rutherford. As a surprise gift, the ladies had a box of colored silk ribbons on which the guests wrote their names and these will be made into an old fashioned "silk comforter" for the bride-elect.

IN SAN MATEO.

They are occupying the Amherst, which house in San Mateo has been entertained a great deal during the summer. On Saturday evening Miss Hogan will give a dance for the younger set.

WALKS 205 MILES TO VISIT HER CHILDREN

CARSON CITY, Aug. 20.—Mrs. J. Lamstrum, a Swedish woman, 27 years old, walked into Carson from Tonopah, 200 miles distant, to see her four children, inmates of the Nevada Orphans Home. Mrs. Lamstrum had been running a small boarding house at Tonopah, but fell and broke her leg. When she recovered, she decided to see her children and walked the entire distance to save money.

When her shoes gave out Mrs. Lamstrum half-soled them with leather cut from a belt in an abandoned saw mill running the new road.

She carried a water bottle and a suitcase from Tonopah to Carson City.

LEAVES THE STAGE FOR ART  
DANCER BECOMES AN ARTIST

MRS. DOUGLAS CRANE, FROM DRAWING MADE BY HER HUSBAND. THE COUPLE ARE NOW IN NEW YORK.

NEW YORK, Aug. 20.—While his wife is dancing, Douglas Crane, heretofore known only as a tango artist, has gone again for art. The clever couple came here from Oakland, California, to astound the smart set with their clever dancing and have since become the ideals of New York dancers. Crane was a miniature painter before taking up dancing, and recently he exhibited a clever drawing of his wife, which has been followed by several other paintings which have been exhibited.

Mrs. Crane is planning a book on dancing which the couple will write together.

EXPOSITION VIEW.

"The Exposition at a Glance" is the title of a remarkable picture, a feature of Western Pacific maps being issued broadcast through the East by the Western Pacific and declared one of the most remarkable pieces of work in the history of Exposition picture-making. The picture is in the shape of a long panoramic view of the Exposition grounds, and shows practically every feature of the fair.

PROPER VENTILATION.

To let fresh air into a room without creating what is termed a draft has been the adopted system in ventilation, but recent investigations on this subject show that still air introduced into a room will not renew the air and that in spite of an open window we may be breathing the same air over and over again.

Automatic breathing is so gently done that it does not affect the system, no matter where you are, for once in one-tenth per cent of the air you breathe you have breathed at least once before. While lying in bed, especially if the bed clothes are about the head, the proportion of re-breathed air is very great and it is true even while sleeping out of doors. If there is no breeze, lay a book on the bed.

This fact emphasizes two really important ventilation and a certain amount of open air exercise.

Exercise in the Open.

A room is not properly ventilated unless the air is in motion. The fear of a draft is largely an inherited one, coming down from ancestors who believed night air unhealthy and that colds came from breathing cold air. Night air, inasmuch as it is not damp, air is not as beneficial to the air breathing system.

It is much better than the stagnant air of a room, and modern medical science believes that colds are contracted by means of a microbe which flourishes in insure damp air and receives its death blow in cold pure air.

Any violent exercise is the open air, with deep breathing, and the muscles contract and grip the air immediately about the nostrils so that re-breathing is an impossibility.

walking if deep breathing is practiced. It is not necessary and possibly unsafe for a person to sleep or sit in a draft, but night air is better than the air on each side of the room, which is open, thus effecting a change of air. In closed rooms or large halls a system of fans providing for continually moving air is the means of solving the problem of ventilation and providing the necessary amount of "live" air.

**A Message to Thin,  
Weak, Scrawny Folks**

An Easy Way to Gain 10 to 30 lbs. of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements, and to stop the leakage of fats is to use Sargol, the beauty dietetic fat tablet. It is a tablet that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Osgood Bros. drug got, or can get it from their wholesaler and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

**Caution**—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

**COON GOOD TWO  
BILLION BUSHELS**

Harvest in United States Forecasted by Committee on Statistics.

WASHINGTON, Aug. 20.—Production of 2,700,000,000 bushels of corn in the United States this year is the forecast today of the committee on statistics and standards of the chamber of commerce of the United States. Its report is based on data secured as of August 12. The gulf is for about a normal crop since the average for ten years is 2,650,000,000 bushels.

The committee's reports show that conditions are very good in some sections and very poor in others, especially in the early growing season and later droughts have injured the crop in Texas, Oklahoma, Arkansas and Missouri, Kentucky, Mississippi, Louisiana and Alabama suffered from a severe drought.

The prospective crop in the most important states are as follows:

Texas 35 to 40 million bushels less than

last year; Kansas 140 to 145 million bushels; Nebraska, probably over 200,000,000 bushels; Iowa probably more than 400,000,000 bushels; Minnesota and Wisconsin excellent prospects; South Dakota, yield probably in excess of earlier period; Missouri probably 175 to 180 million bushels; Illinois 25 to 30 million bushels more than last year; Kentucky close to that of last year; Louisiana less than that of last year; Alabama and

Mississippi probably five per cent less than the last year, and Ohio, yield rather above last year.

**ISLAND MAY LOSE  
RADIO SCHOOL**

The Change in Schedules May  
Result in New  
Quarters.

MARE ISLAND, Aug. 20.—It is stated that Mare Island is in danger of losing its radio school if the Navy Department carries out its intention of doing away with the radio school ship at this year's election. The radio school was established at Mare Island the pupils have been quartered on the guard, and if the receiving ship is gone, the men at the naval station will either have to be quartered at the navy yard, or transferred to the St. Louis station at Terra Buena in San Francisco bay.

**MARE ISLAND NOTES**

VALLEJO, Aug. 20.—Judges for the chrysanthemum show which is to be staged here sometime in October by the Valley Chamber of Commerce, will be named during the next few days.

The matter of prizes, some of which will be cash and some medals, has not as yet been decided upon, but announcements concerning these will also be made during the next few days.

That a large number of entrants will

be in the competition, there being 30 persons in this city who will enter blossoms. Besides local participants a number of persons from Napa Valley and in other parts of Solano county are growing flowers for the occasion.

**URGE CHANGES TO AID  
SHIPBUILDING PLANS**

MARE ISLAND, Aug. 20.—Now that the Secretary of the Navy has come forward with the announcement that he will assist Mare Island in getting the needed equipment for battleship construction, navy yard officers are advocating the installation of a building slip south of drydock No. 2, and also the erection of a cantilever crane along a certain section of the waterfront.

**MARE ISLAND NOTES**

MARE ISLAND, Aug. 20.—The Navy Department plans to have all of the new war ships now in Mexican waters leave for their home navy yards on the 1st of September. The auxiliary vessels will be left at Mazatlan, Mexico. Officers stated today that there is a possibility that the proposed naval oil depot which is to be located in the harbor of Mare Island will be established in Los Angeles. The 1st of September is the day when the Navy Department will leave for San Diego bay.

The destroyer Hull of the Pond division Lieutenant Jones U. S. N. commanding, arrived at Mare Island at 2 o'clock Wednesday afternoon from New York.

Ensign Stuart A. Smith, U. S. N., attached to the receiving ship Intrepid at Mare Island, has been ordered to report

for examination for promotion at the navy yard on Monday.

**RIGHT TO RECOVER  
FEE BEFORE COMMISSION**

SAN FRANCISCO, Aug. 20.—The right of a family physician to recover from an indemnity company a larger fee than that which would have been charged by a physician representing the insurance company with which the employee's employer has insured him has been brought to the attention of the Industrial Accident Commission. The proceedings were had before Commissioner Will J. French, who took the case under advisement.

Vincent Devlin, 265 Eleventh street, a carpenter, was employed by J. W. Smith & Sons, the Builders' Exchange. They are insured by the Western Indemnity Company. When

Devlin was injured, Dr. J. S. Cleary, 267 Fourth avenue, Dr. J. L. Howard, Butler building, is the medical director of the Western Indemnity Company.

Dr. Cleary demanded \$35 for his professional services. Under the fee system adopted by the California State Medical Society Dr. Cleary is entitled to only 15. He made the demand at the hearing Tuesday that he be paid the difference. The company demurred upon the ground that while Dr. Cleary was attending Devlin he received two notices from Dr. Howard intimating that his, Dr. Cleary's charges, should be based upon the adopted schedule.

Other cases involving this same point have arisen but have been adjudicated before they reached the Industrial Accident Commission. The ruling of Commissioner French is therefore awaited with interest by not only State physicians as a whole, but by employers and employees as well.

**NATIONAL FRATERNAL  
CONGRESS ELECTS**

NIAGARA FALLS, N. Y., Aug. 20.—The National Fraternal Congress yesterday elected the following officers:

President, J. J. Taake, Des Moines, Iowa; vice-president, C. B. Hunt, Indianapolis; treasurer, A. E. King, Cleveland.

Members of the executive committee elected: John J. Hines, Buffalo; W. H. Powers, Boston; Thomas B. Hanley, Des Moines; J. D. Clark, Dayton, Ohio; I. I. Doak, Denver, and R. H. Gerard, Crawfordsville, Ind.

A resolution recommending Federal control of all insurance organizations was referred to the convention of 1915.

**RESUME GOLD MINING.**

REDDING, Aug. 20.—While the war in Europe has worked havoc with coppermining activities in Shasta county, it has served to rekindle interest in the gold mines. It is reported shipments of gold-bearing ore from the Red mine in the Old Diggings, the Mammoth smelter, will commence in the near future, and other operators expect to send steady shipments to the big Kennett plant within a few weeks. While much of the ore is rather low grade, the gold content renders it particularly valuable, now that copper and silver are at a discount.

W. T. Greene, Belpointe, N. H., writes the following letter, which will interest everyone who has kidney trouble: "For over a year Mrs. Greene had been advised. An operation was advised. This I would not consent to. Dr. Foley advised me to complete her recovery than any medicine she has taken and I feel it my duty to recommend Foley Kidney Pills to all who need kidney medicine. They are tonic in action, quick to give good results. Sold everywhere."

Alameda.

ALAMEDA, Aug. 20.—Through the enterprise of J. H. Wilkins, J. H. Burton and C. P. Nagasawa, F. M. Anderson and George W. Hickman of the trade and commerce department of the Alameda Chamber of Commerce, Alamedans will hear another interesting lecture upon California industries and the possibilities awaiting the development of the state.

This illustrated lecture will be given in the auditorium of the Height School on Santa Clara avenue, between Willow and Chestnut streets, this evening at 8 o'clock. It is one of a series of lectures given in the principal towns of the state.

The instruction given at this institution is of the highest order and it is worthy of the greatest consideration and support. Major Nance has improved the efficiency very much during the past year.

**COUNCIL CALMS STORM  
BY BUYING TWO MACHINES**

BERKELEY, Aug. 20.—Commissioner E. Q. Turner's frowns have disappeared as a result of the action of the city council in granting James E. McElroy, in the street department, a new automobile. At the same time the council has decided to also order a machine for the fire chief to replace the one which was recently sold.

The purchase of the latter automobile is understood to have hung fire for some time because of Turner's objections. He wanted a machine also for Bill, which he has since disposed of to permit. He did not object to Chief Kenney's having a new car, but he thought the former ought equally to be avoided.

Now the council has decided to buy both machines.

**TWO PUSHBALL GAMES  
FOR LOWER CLASSES**

UNIVERSITY OF CALIFORNIA, Aug. 20.—Two pushball games, instead of one, with a two-man team as an added attraction, have been decided upon for the lower classes of the sophomore, which, on Saturday morning at the old baseball field on the campus, is expected to settle the enmity between freshmen and sophomores. The annual competition, to be held in the afternoon, will be from each class.

In the second all members of both classes who desire may participate. The tug-of-war, also between picked teams, will be the closing event. The athletic minded, the underclass will serve as a service, assisted by members of the Big "C" society.

## War Has Shifted Ring Activity of World to America

Golden State to Receive Greater Part of Talent During Exposition.

(By HARRY BURNS.)

Boxing today is at a critical place in its existence throughout theistic world.

In Europe the war of nations has brought boxing to a standstill, and the same standstill, while in this country, the excessive heat in the East and South has practically closed the doors of the homes of historic quarrels till the cool weather sets in.

California and Australia are the only two points that are burning in full blast, and on the map in the inside, the re-opening of the other fight centers won't hurt the coming of the world's greatest fighters to the Golden State, for prot-

ection of the world's best boxers can get them to east the old coastward.

What or stops to consider the many managers that are following the ring, what remarkable strides they have made to improve not only in their work, but in their moral side of life. There has been a decided improvement in the moral side of the game, the ringman himself to the promoter, Lovers of the art of fighters, the class of maters being staged, in fact boxing as it stands today, is in a healthier condition than ever before in the history of

the sport, and the officials of the different countries, in fact

everyone that takes part in any manner, officials, and they have succeeded in such a manner that boxing is more popular than ever, the world over, and California has not been able to stage the greatest fight in the world.

Since it may seem that Europe is yearly becoming more decimal, not only in their art of boxing, but in their methods of fighting, the ringmen used to go with the aggressiveness of the war, and the ringmen used to come to taking part in the ring.

But of late they seem to have become more and more the finer points of the ring, the ringmen of our ringmen, but our training methods, consisting of a boxer's a fighter, for the ringmen have been much

more and more in the ring, as well as the ringmen, the fighters, the ringmen are the

## Getting Away From Yesterday

**T**O DAY we must abandon some of yesterday's methods. New ideas, new methods, new friends must be sought today. The battle for a bigger, better, busier business goes on and on. ¶ You install new and better machines, you are seeking more efficient employees, you are constantly improving your business here and there; your capacity is greater, you need more business; now, why not employ a printer who can give you new ideas; a creative, constructive printer who can put a "KICK" and a "PUNCH" into your booklet, folder, circular, letterhead or card. These silent messengers represent you or misrepresent you. Asking to see samples of what the other fellow had printed is taking advantage of his originality. ¶ Let us help you to originate and blaze the trail of your representative with printed matter of the right sort and watch the steady increase of your business. ¶ This department of complete service we now call

## BARROWS WILL SPEAK ON WAR

## ST. LOUIS SUFFERS FROM RAINSTORM

Church Meeting to Hear Views of Noted Collegian on Subject.

Professor David P. Barrows of the University of California will deliver a lecture tomorrow evening in the First Congregational Church of this city, where he will give his view upon "The European Alliances and Their Effect on the Present Military Situation." The lecture will mark the first in the series of semi-weekly public addresses to be given as part of the University of California extension work.

Arrangements as to the dates and meeting places of the teachers' classes in the University extension work are nearly complete. The first classes were called at the Plymouth Center on Wednesday evening for the formation of classes in French and Spanish, more than 80 teachers signing up.

The schedule of classes for these two languages is as follows: Elementary French, Monday and Wednesday from 7 to 8 p. m.; advanced French, Monday and Wednesday from 4 to 5 p. m.; elementary Spanish, Tuesday and Friday from 4 to 5 p. m.; advanced Spanish, Tuesday and Friday, from 7 to 8 p. m.

## LIVESTOCK ENTRIES FOR FAIR ORDERED

SACRAMENTO, Aug. 20.—Owing to unavoidable delay in getting the premium list for this year's State fair into the mails, the time for closing the live stock entries has been extended until August 25, instead of closing August 12, as first announced.

The third generation of the Glide family of Dixon, Yolo county, is preparing to exhibit cattle at the State fair. J. H. Glide, a pioneer in the stock raising business in California, showed stock at the State fair in the early sixties. Later his son, Thornton S. Glide, continued to bring shorthorns to the capital city at fair time. Thornton Glide is now teaching his son, now 18, to care for cattle for exhibition at the State fair.

A large number of swine have been entered in the live stock exhibit for the State fair in September. Among those to enter are M. and Archib. L. Bassett of Hartford; Kings county, Poland-China; John P. Daggs of Modesto, Stanislaus county, and J. K. Frazee of Denair, Stanislaus county; Duroc-Jerseys; G. A. and H. L. Murphy of Sacramento; Sacramento county; H. C. Armstrong of Woodland, Yolo county, Berkeleys, and C. B. Cunningham of Mills, Sacramento county, Chester whites.

## SOCIETIES TO GIVE BALL OPEN ST. JOSEPH'S HALL

ST. JOSEPH'S HALL, AS IT HAS BEEN REMODELED, AND NEW DROP CURTAIN ON AUDITORIUM'S STAGE.

SAN LEANDRO, Aug. 20.—The newly remodeled St. Joseph's hall will be opened Saturday evening with a grand ball, under the auspices of Haines Council, No. 63, Young Ladies' Institute, the Knights of Columbus. An inclusive program has been arranged, including a joint committee of the two church bodies, which has offered its services free. A joint committee of the two church bodies has been engaged for several weeks in planning the house warming.

The interior of the hall presents a more artistic appearance.

In the work there is great harmony in color and design. The walls are painted in buff with a light ceiling and the wood-work dark brown. A new drop screen, showing the Santa Barbara Mission church, is to be presented with St. Leander's church in the distance.

The Young Ladies' Institute room has been remodeled and decorated in keeping with the main hall. The exterior of the hall also presents a fine appearance.

The exterior is painted in brown, and the moldings in tan. The hall can accommodate 400 people. The hall building is a thirty-foot flagpole presented by William Zombeck. Mayor J. J. Gill presented a flag.

## Y. M. I. COUNCIL ELECTS OFFICERS

## BUTCHERS' UNION TO HOLD PICNIC

Plan Summer Home for Members of Catholic Societies.

SANTA ROSA, Aug. 20.—The Grand Council of the Young Men's Institute yesterday voted in favor of a Pacific Coast Catholic summer home for members of Catholic societies.

Benjamin L. McKinley of San Francisco was elected grand president last night.

Another resolution prevailed urging members of the Young Men's Institute throughout the jurisdiction to subscribe for stock in the Y. M. I. building being built in San Francisco.

Past Grand President Charles G. Willey of San Francisco introduced the report of his committee on the state of the institute and among other things, recommended the general observance of Good Friday and the setting apart of February 22 as "Young Men's Institute Day" in view of the fact that one of the mottoes of the Y. M. I. is "pro patria."

The report of the grand finance committee indicated the sound financial standing throughout the State. The report was unanimously adopted.

A resolution was adopted providing for a raise of the salary of Grand Secretary George A. Stanley. Stanley was re-elected yesterday for the twenty-fourth successive year.

The other resolution was devoted to the election of officers and winding up the general business of the convention.

The other officers elected are:

Most Reverend Archbishop Blodorn, honorary chaplain; the Rev. M. D. Statler, grand chaplain, San Francisco; Charles R. Hancock, San Francisco, first vice-president; T. P. O'Connell, second vice-president, San Francisco; George A. Stanley, grand secretary, San Francisco; J. J. Cavanaugh, grand treasurer, Valencia; H. Lucy, grand marshal, San Francisco; Harry J. Kelly, grand inside sentinel, San Diego; Charles O'Connell, grand outside sentinel, San Francisco; the Rev. N. P. Weber, Napa; E. T. Lucey, San Angeles; P. C. Clark, Charles A. Oliva, San Francisco; T. P. Stojan, Sacramento; R. H. McNamee, Vallejo; A. J. Mulvany, Alameda; J. H. Meyer, San Jose, members of the board of grand directors.

During the hours of the reception a dinner will be in attendance in the school yard to care for children.

## FOREST FIRES DAMAGE MUCH RANCH PROPERTY

PLACERVILLE, Aug. 20.—A large forest fire which has been raging for the last three days to the east of town has destroyed considerable property. The old Darlington homestead and the ranch of Supervisor John Wall are in the path of the flames. Wall has asked for men to fight the fire in order to save his home.

The fire destroyed 250 2-year-old walnut trees owned by Dr. J. Q. Wren, causing a loss estimated at \$1000.

Arthur S. Lyon suffered a loss of over \$500 when the flames burned a vineyard on his land.

NEW MARITIME LAW IS  
EXPLAINED IN LETTER

The Oakland Chamber of Commerce has received the following relating to American registry of foreign-built vessels:

The bill allowing American registry for foreign-built vessels owned by Americans was summarized as it passed the Senate on August 6, in Indiana. On August 11, the House Senate after considerable amendments and now being considered by conference of the two houses of Congress.

The amendments of the Senate in substance are: Before a foreign-built vessel is registered in America, the corporation can be admitted to registry. The majority of the stock must be owned and held by American citizens; foreign-built vessels admitted to registry, may be registered in America.

The bill, as it stands, provides that no trade required to be admitted to the trades between the Atlantic and the Pacific coasts, the trades between the Gulf and the Atlantic, and the Gulf and the Atlantic, coastwise trades between the Great Lakes and either the Atlantic or the Pacific coasts, so far as the President deems desirable, the President may suspend the bill.

It is understood that the conference have tentatively agreed to substitute for the provisions relating to special coastwise trades, a paragraph specifying the coastwise trade generally to such ports within the United States as may be American registry under the bill. The conference will probably reach a final

agreement.

BENEFIT IS GIVEN.

SAN LEANDRO, Aug. 20.—The San Leandro Recreation Club gave a benefit entertainment in the Best Theater last night, the proceeds of which will go towards a new tennis court. An enjoyable musical program was contributed by Victor Schott, violinist, with Mrs. H. P. Fish as accompanist, and Mrs. Florence Von Goller, vocal artist, with Mrs. Frank Holiday, accompanist.

It's the New Way, and You'll Forget You Ever Had Corns.

No Corns to Bump; No Pain, If You Use "GETS-IT."

"GETS-IT" drops put on in 2 seconds, corn shrinks away from you. That's the marvelous story of "GETS-IT," the new Indian corn cure. Nothing can be simpler for the cure of corns—and it never fails. That's why millions of people are using "GETS-IT," today and throwing their old corn cures away. "GETS-IT" is a new, non-toxic, non-irritating, non-staining salve and "strapping outfit" that comes in a bundle around the toe and cheek to pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knobby, raw, sensitive toes, with their blood-poisoning germs. Try "GETS-IT" for that corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, in a bottle, or sent direct by E. Lawrence & Co., Chicago.

"GETS-IT" is sold in Oakland by Owl Advertising.

WILL ERADICATE "BLONDES."

LOS ANGELES, Aug. 20.—Word was received in Los Angeles yesterday that Governor West of Oregon had issued extradition papers for E. H. Carpenter and Mrs. Nona P. Helm, known as "June the Blonde," who are held at the Los Angeles city jail on charges of forgery in Portland. Portland officers armed with the extradition papers left for Los Angeles today. Carpenter is alleged to be a partner of George Hammond, fugitive, who shot and seriously wounded C. O. Murray, a Pinkerton detective, here several days ago.
